Ph.269-370-2779

**Ages 6-8**

**2nd Period 11:20-12:40**

In class, we will have fun topics that brings the outside in. We have a beautiful trail at REACH and we will be outside weekly noticing and observing changes. Taking a short nature walk weekly helps the kids see the changes and connect with nature. My hope is for the children to explore nature at REACH and bring this curiosity home.

We will take time each week to slow down and pay attention to nature that God created all around us. A few of the topics we will explore and discuss in class include:

- Autumn Tree Study
- Birds and Bats
- Weather
- Mammals
- Pond Study
- Seasons
- Harvest Moon
- Pumpkins
- Seeds
- Spring tree Study
- Earthworms and much more

**"We were all meant to be naturalists, each in his degree, and it is inexcusable to live in a world so full of the marvels of plant and animal life and to care for none of these things." ~ Charlotte Mason**

Note: We will be going outside unless it is raining or too cold so PLEASE make sure your child has appropriate clothing for our adventures.

## Fees:

**Tuition: \$300**

**Materials Fee: \$40 (non-refundable)**

**1st Payment: \$150 + \$40**

Due 09/06/2023

**2nd payment: \$150**

Due 11/08/2023

**Lamp Payment- \$33.33 Monthly**

Hi my name is Jaime Rogers. I'm a homeschool mom to four amazing girls whom I've had the privilege of homeschooling for the past 8 years. I'm married to my best friend of 23 years. When I'm not doing laundry or homeschooling I love hanging out with family, listening to worship music, reading books drinking coffee and watching movies.

My husband and I made a choice a few years ago to move from a residential neighborhood to the country. Since then I have found that being surrounded by God's amazing creation has led our homeschooling to be more adventurous and exploratory. I hope to share that same wonder and beauty God has placed all around us to encourage and enhance your student's academic exploration in my classroom.
