charityldear@gmail.com

Grades/Ages: K-2nd grade, 5-7 years

Tuition: \$320 / \$160 each semester

Launch into STEM!

STEM covers elements of Science, Technology, Engineering, and Math. Students will be using diverse strategies to explore each of these areas.

Keywords for this class are HANDS ON!

Launch into STEM is a different kind of class. It is highly collaborative, creative, and active.

I like to introduce a scientific or engineering concept at the beginning of class. I then challenge the students with experiments, maker space, or projects to discover and reinforce concepts.

Students learn the STEM process as they work together to solve their challenges. Ask, Imagine, Plan, Create, Test, and Improve.

About the Tutor

I received my B.A. from Cornerstone University in Language Arts and Elementary Education. I have worked with students in varied capacities for over 25 years.

I believe God is at the center of all wisdom, knowledge, and Truth, and am eager to translate that into the classes I am teaching!

Over the course of my life, my most honorable position is easily being a wife to Anthony Dear, and mother to my four children. I love being a homeschool mama!

I am a high-energy, enthusiastic, and FUN educator! I believe in making memorable experiences with children and allowing movement and energy to guide learning! I look forward to serving the students in my care!

Tuition

SELF PAY: \$320 total tuition: \$160 on the first day of classes each semester. No refunds after the third week of class.

LAMP FEES: \$320 total tuition: If LAMP covers partial tuition, parents are responsible for remainder. Parents are required to pay any missed LAMP fees.
