

# Exploring Piano

Instructor: Sarah Ely

We will pursue theory and technical growth as well as expanding aural awareness and free-form composition, through creativity and exploration.

Goals: exploring simple improvisations, creating musical stories on the piano, and singing work to accompany technical piano skills.

Classical and traditional teaching methods are used with the Alfred and Faber curriculums. Students are encouraged to explore a variety of musical genres, motifs, and rhythms.

Greatest desire is to help the student progress while learning to ENJOY playing music.

## Meet the Tutor:
