The primary focus of this class is to introduce the fundamentals of painting to the beginner artist. To do so, we will be using multiple painting styles with references to many well known artists. The objective for each student is to learn how to create a strong piece of work with subject and design through the medium of paint.

This course is a full academic year (2 semesters). Most work will be done inside the classroom where we can discuss each other's processes and finished work. Homework will primarily consist of sketches and other prep work for in class painting.
