

Middle School Earth Science

Pat Polstra
269-267-5997
patpolstra@yahoo.com

6th-8th grades
Geology, Hydrology
Meteorology, Astronomy

Course Overview:

Join us as we investigate and discover God's creation all around us. Students will be active and engaged with experiments and games while learning all about God's magnificent Earth: geology, lithosphere, hydrosphere, atmosphere, meteorology, astronomy, and much more. Students will need God's Design for Heaven and Earth Student Readers (Earth/Weather & Water/Universe; 4th edition) by Richard and Debbie Lawrence.

Instructor:

I have a BBS (secondary education) from Crown College. I loved teaching at a small private school in Grand Rapids and have continued my love of teaching and community with children's church ministries, RBM's Released Bible Time, and co-op.

I am a wife of twenty years and mother to two teenagers. We have been homeschooling since 2010 and have enjoyed our years at co-op. We are quirky gameschoolers who never turn down a good science experiment: the messier the better!

Self-Pay Fees: \$30 non-refundable fee due at registration, \$140 due September 8, 2021; \$140 due January 19, 2022. If the class is dropped after the third class of the semester, tuition is not refunded.

LAMP Fees: \$30 non-refundable fee due at registration; no post-dated checks. \$280 tuition; if LAMP only provides partial payment, you will be responsible for the rest, which will be due October 20, 2021. Students are required to self-pay for any missed LAMP payments due to dropping after the third class or not meeting LAMP requirements during the semester.
